This is the book that started it all! Through this clever and compelling work, Santa shares his eight “secrets” for getting big things done all year long. The lessons found within these pages provide the perfect foundation upon which to build your year-round leadership development initiatives.

Potential Applications:

- Using other resources provided in the tool kit, build a complete training program around the leadership “secrets” identified in the book. Distribute copies to all attendees prior to the session as pre-reading. Use the work as the “core textbook” for your leadership development programs.

- Add a “Santa’s Secrets” module to your current leadership training programs. Give everyone a copy of the book as pre-reading. During the session, discuss the material and participant reactions. You’ll find several discussion questions on the next page to get you started.

- Take a self-paced approach to training by giving your leaders a copy of the book along with The Leadership Secrets of SANTA CLAUS™ Workbook (see page 8). Encourage leaders to read the entire book first – and then go through it a second time as they complete the workbook sections.

DISCUSSION QUESTIONS

If you had to condense this book down to one overall message, what would that message be? How important is that message to our organization?

What’s your definition of “leadership”? What’s involved? Who benefits when it’s done effectively?

What information from the book stuck with you? What got your attention? What could you relate to?

How does the information in the book link with, and support, our organizational mission? Our values? Current programs and activities?

What will you commit to doing differently/better as a result of reading this book?

Which “Santa’s secrets” do you feel you’re good at? What can you do to help others achieve success in these same areas?

What are some things we all can do to get the most benefit from what this book has to offer?
The Leadership Secrets of SANTA CLAUS™ Audio CD

The 2-disc audio version of the book that started it all – narrated by Santa Claus, himself! Listen along as Santa guides you through his eight leadership “secrets” as only he can do.

Potential Applications:

- Offer the “book on CD” to participants as an alternative to the hardcover book – or consider providing them both.

- Add impact to your training by playing portions of the CD (during the sessions) that correspond to specific material you’re covering. Play the CD as people enter the room – and during breaks – for “atmosphere.” Pretend you have Santa on the phone to explain concepts presented in the book. Get creative ... the possibilities are endless!

- When your training ends, give each participant an Audio CD. Tell everyone to listen to it, periodically, as a reminder of the important concepts and behaviors they need to apply as leaders.

Santa’s Leadership Secrets™

Animated Video (DVD and VHS formats)

Think Santa’s job is easy? Think again! From motivation and communication issues, to reindeer recruitment and red wagon production problems, Santa’s got a REALLY tough job.

Discover how Santa meets these never-ending leadership challenges by taking this magical, 12-minute journey to the North Pole. Learn how he – and his team of elves and reindeer – get big things done in their workshop ... all year long!

Potential Applications:

- Use it as a program opener to set the tone. Start your program by dimming the lights and showing the video. Then, turn the lights on, welcome participants, and suggest that what they saw is a preview of the subject matter you’ll be covering in the program.

  Note: The video can also be used as a powerful “session starter” for leadership conferences and staff meetings.

- Show it during your sessions to reinforce key training concepts and give participants an audio-visual break from regular classroom activities. Prior to viewing, develop a set of discussion questions to identify the key learning and linkages with material covered. You’ll find a few questions on the next page to get you started.

- Use it as a program closer to summarize important concepts covered during training and send participants on their way with a memorable and motivational message.
DISCUSSION QUESTIONS

- In the video, Santa tells us that leadership is about “walking the talk.” What’s your reaction to that? What does the phrase “walking the talk” mean to you?

- Santa also tells us that leaders must “do the right thing.” What does that entail? What specific behaviors would you expect to see from leaders who “do the right thing” in our organization? How common are those behaviors?

- What was the red wagon story about? How relevant is it for our organization? What was the key learning for you?

- According to Santa, what are the keys to building “a wonderful workshop”? How applicable are those concepts to our workplace? To what degree do we practice them now? What can we do to make our workshop even better?

- What does Santa mean when he tells us to “share the milk and cookies”? How important is it? How do you suppose employees would rate us on that? What are some things we all can do to improve our performance in that arena?

- The video ends with the words “everyone wants to believe.” What is Santa referring to? Do you agree? What’s the connection to leadership? What’s the significance of those words for YOU?
The Leadership Secrets of SANTA CLAUS™ Workbook

Help leaders at all levels understand and apply the philosophies and techniques presented in The Leadership Secrets of SANTA CLAUS™. Loaded with interactive exercises, self-assessments, and action-planning guides, this 28-page workbook is the ideal companion piece to the “Leadership Secrets” book. More importantly, it’s the perfect core resource around which to build your leadership development training.

Potential Applications:

- Use the workbook as the primary participant handout and learning guide for your leadership development training. Adjust the individual exercises for table-group application. Support the lessons and key learning by assembling a tailored slide presentation from the large stock library provided in the PowerPoint Visuals CD (see page 9).

- Divide the workbook contents into training modules – covering 1-2 “secrets” per module. Conduct the training in a series of shorter sessions, or as agenda items for regularly scheduled staff meetings. Begin each session with a quick review of what was covered in the previous module.

- Take a self-paced approach to training by giving your leaders a copy of the workbook along with The Leadership Secrets of SANTA CLAUS™ Book (see page 3). Encourage leaders to read the entire book first – and then go through it a second time as they complete the workbook sections.
